

# Octane Booster

## DISCRIPTION

Octane Booster is a self-mixing combination of agents formulated according to state-of-the-art additives and fuel technology. Octane Booster is for universal use and increases the research octane number (RON) of the fuel by 2-4 points, depending on the RON. The increased fuel performance prevents engine damage caused by knocking and the increased octane number leads to optimized engine performance and reduced fuel consumption.

## PROPERTIES

- increases the octane number by up to 4 points depending on the RON of the gasoline
- increases the performance of all grades of gasoline
- no harmful effects on catalytic converters or the environment
- cleans and protects mixture preparation systems

## TECHNICAL DATA

Color	:	light brown
Base	:	additives / naphtha
Density at 15 °C	:	0.81 g/cm <sup>3</sup>
Flash point	:	60 °C
Pour point	:	-45 °C
Viscosity at 40 °C	:	< 7.0 mm <sup>2</sup> /s

## APPLICATIONS

For increasing the octane number of gasoline.

## APPLICATION

One 300ml can is sufficient for 50 l gasoline.  
Increases the RON by up to 4 points.  
Pour Octane Booster into the fuel tank and then top up with fuel. Mixing takes place automatically.

## AVAILABLE PACK SIZE

Octane Booster 300 ml
